The ACMA is currently reviewing the legislative framework for telecommunications equipment compliance. This will affect the testing requirements and compliance levels for mobile devices supplied to the Australian market. Until this review is complete and the new arrangements are in place we will not be recognising conformity assessment bodies to the S042.x suite of standards under the MRA.

As noted in our earlier correspondence we will be happy to reconsider our position on recognition of changes to designations in relation to S042.x standards after the new notice is established.

Please contact Kristy Tehan (Kristy.tehan@acma.gov.au) if you have any queries regarding this letter. All future correspondence regarding CABs may be sent to ACMA's email address at MRA.CAB@acma.gov.au.
